## Clinical Supervision. Online.

With the rise of tele-mental health—and the recent COVID-19 pandemic—more therapists are switching to HIPAA-compliant video conferencing.

Thankfully, your Kentucky LPCC board had already been working to update the supervision rules to remove the requirement for having one “shared air” session per month. This rule change now grants approval for full online supervision in Kentucky!

We know how difficult this was for counselors in rural areas where access to a supervisor is often very limited or just not available. Updating the rules is a huge accomplishment to help new counselors on the path to licensure, as well as providing Kentucky supervisors with more flexibility for meeting with their supervisees online.

**Motivo is here to help** if you're looking for more information about online supervision.

If [you're searching for a supervisor](#), either in your state or for peer consultation and mentorship, we can help match you with a supervisor.

For our LPCC-S counselors, you can also sign up to [become a Motivo supervisor](#). If you have supervisees who you need to move online, please reply back to this email to get started. We offer a \$50 referral bonus for any new supervisee you bring onto Motivo.

And if you know someone who needs help with supervision, please reply back to this email and copy them. For every successful new match, we'll send you a \$50 referral bonus after the supervisee completes their first session.

To learn more, check out [our press release](#) including this statement from Karen Cook, Executive Director of KCA: “There is no doubt that allowing online supervision is an important element in increasing the number of counselors eligible for licensure.”

Thank you for all the great work you're doing. Stay well and please let us know if we can help in any way.
